WP1550 Day:\$80 - Wk:\$275 - Mo:\$595

Vibratory asphalt plate:

Premium asphalt plates feature a durable baseplate for various applications. These premium vibratory asphalt plates feature a tough, wear resistant, ductile iron baseplate offering high strength and shock resistance. This computer designed baseplate has a tapered bottom and edges for high speed and excellent maneuverability. Designed for the compaction of granular and mixed materials with some cohesive content in confined areas such as parking lots, highway and bridge construction, next to structures, curbs, and abutments.

EH 27 Day:\$85 - Wk:\$225 - Mo:\$500

Electric Breaker: 115V, hex 28x152mm/1.1x6.3

These electric universal breakers can be used, in addition to breaking up and demolition work, for driving in earthing rods as lightning conductors, driving in piles using special hoods, and ramming in probes to obtain soil samples for geological purposes and environmental soil examinations. The telecommunications construction sector, and fencing/tent building companies are also frequent users of this type of equipment.

BPU3050 Day:\$100 - Wk:\$500 - Mo:\$1,050

Reversible Vibratory Plate:

Versatile reversible plates ideal for compaction of interlocking paving stones, trenches, landscaping and maintenance. The only plates with a durable, integrated wheel set that provides for maximum built-in mobility. Single lever direction control provides for easy operation.

PS2 200 Day:\$50 - Wk:\$150 - Mo:\$275

Single Phase Submersible Pump:

Lightweight, portable, single phase submersible pumps are designed to handle water and solids. Built for the demands of construction, mining, municipality and farm applications. 2in Submersible Pump 110V/60Hz

BPU3545 Day:\$125 - Wk:\$600 - Mo:\$1,225

Reversible Vibratory Plate:

This vibratory plate offers the best compaction of various types of soil. They show their true strength when working on semi-cohesive soils in particular. These reversible plates provide optimum performance along with a variable forward and reverse speed of up to 79 ft/min (24 m/min). Plus, the dual shaft exciter technology provides the maximum possible compaction depth in most types of soil.

PDT3 Day:\$95 - Wk:\$225 - Mo:\$450

Diaphragm Pump:

Diaphragm trash pumps for jobs no other pumps can handle. WACKER's diaphragm trash pumps can move anything that flows. Built with high quality components, you will be assured of many years of top performance and durability. Designed to handle solids up to 1-3/4 (45mm) inches, ideal for dewatering mud slurries and seepage areas.
